AIO WITH SUPERIOR PERFORMANCE EVER

Presenting  
ViewPaker's Skywalker

Born for gaming

# Skywalker 27"/32"

ViewPaker gaming AIO is full of performance and graphics capabilities to run the latest and most-loved PC games at their best. Whether you're upgrading or looking for your first gaming PC, we have perfect AIO you'll love.

Its equipped with professional gaming HD Screen and has 2ms dynamic response time. Blow-your-doors-off gaming excitement comes jam-packed into the ViewPaker Skywalker series itself, with GTX-960/970/980 graphic card option.

# Skywalker 28" 4K

Game the way you want on the ViewPaker 28" 4K AIO. It's thinner and lighter than any gaming AIO, but that doesn't mean we skimped on performance. Crafted without front glass cover which makes display quality more clear and brighter, the 28" 4K is designed to give you an awesome gaming experience.

Lean and mean on a big screen: Enjoy 4K (3840x 2160 )-display on an expansive 28" screen that offers stunningly clear color and real life images.
